As a result of pre-arbitration discussions, we have agreed to full settlement of the above referenced case(s) as follows:

1. All career City Letter Carriers who were scheduled to work on January 6 and/or 7, 2022 shall be paid 12 hours of Administrative Leave.
2. All City Letter Carriers who were scheduled to work on January 6 and/or 7, 2022 shall have any leave charged to them returned to their appropriate balances. This shall include any notation of LWOP/AWOL.
3. Any City Letter Carrier (to include PTFs) that reported to work on January 6 and/or 7 and did not work a full schedule shall be paid guarantee time (Code 062). CCAs shall be paid up to their four (4) hour guarantee.
4. City Letter Carriers who had previously scheduled leave or were on an extended LWOP status on January 6 and/or 7 shall be excluded from the agreed upon remedy for the above referenced cases.
5. All leave/pay adjustments associated with the above listed cases shall be completed using PS Form 2240. Management shall submit all PS Form 2240's for processing no later than May4, 2022.

ISSUE:

Did Management violate Section 519 of the ELM via Article 19 of the National Agreement when they failed to grant administrative leave to Letter Carriers in the Bellevue Station during the period of January 6th – 8th, 2022? If so, what is the appropriate remedy?

DECISION:

The Dispute Resolution Team (DRT) has decided to declare an **IMPASSE**. The Step B team has considered all arguments and evidence in the case file and any of this material may be cited in the event of Arbitration. The NALC National Business Agent may appeal this grievance to Arbitration within fourteen (14) days after the receipt of this decision.

UNION'S POSITION:

The Union Formal A Representative effectively presented the Facts and Contentions. All of the arguments raised by the Union at the Informal and Formal Step A meetings are brought forward to Step B and at Arbitration. The Step B Representative adds the following:

The documentation submitted by the Union supports the burden of proof and shows Management violated the National Agreement when they denied the affected carriers' requests for administrative leave due to an "Act of God" from January 6, 2022 to January 8, 2022.

Page 10-17 of the 2021 Joint Contract Administration Manual (JCAM) reads in relevant part:

Administrative Leave. This is governed by the provisions of ELM Section 519. It is defined as absence from duty authorized by appropriate postal officials without charge to annual or sick

leave and without loss of pay. The ELM authorizes administrative leave under certain circumstances for various reasons such as civil disorders, state and local civil defense programs, voting or registering to vote, blood donations, attending funeral services for certain veterans, relocation, examination or treatment for on-the-job illness or injury, and absence from duty due to "Acts of God."

On January 7, 2022, many letter carriers called in via the Interactive Voice Response (IVR) system and requested administrative leave due to community disaster. The TACS Employee Everything Reports show all requests for administrative leave were denied in the enterprise Resource Management System (eRMS) by Supervisor Dinkins and replaced with annual leave that same morning. The casefile contains PS Form 3971s requesting administrative leave as well, however, the requests were never acted upon by management.

The 2022 JCAM references the Employee and Labor Relations Manual (ELM) Section 519. It goes on to reenforce the language of ELM Section 519 which reads, "The ELM authorizes administrative leave under certain circumstances for various reasons...absence from duty due to "Acts of God." ELM Section 519 defines "Acts of God" as follows:

519 Administrative Leave

519.21 Acts of God

519.211 General

Acts of God involve community disasters such as fire, flood, or storms. The disaster situation must be general rather than personal in scope and impact. It must prevent groups of employees from working or reporting to work.

The verbiage of ELM 519.211 is unambiguous. It is a clear roadmap as to what has to be satisfied to be considered an "Act of God". This situation meets the definition of "Acts of God" when using the qualifiers that were defined in the Employee and Labor Relations Manual. The National Weather Service issued a winter storm warning at 4:20 a.m. CST, January 6, 2022 that reads in part:

A Winter Storm Warning is in effect for most of Middle Tennessee...Snow accumulations of 3 to 5 inches, with higher amounts possible, are anticipated along and north of I-40. Hazardous travel conditions are expected to develop during the day today and worsen tonight as temperatures drop into the teens and single digits. Roads will likely remain hazardous Friday into Saturday morning as temperatures stay below freezing.

TEMA Flash Report #1, dated January 6, 2022 reads in part:

The State Emergency Operations Center in Nashville is activated to a **Level 3 – State of Emergency...**

TEMA Flash Report #2, dated January 7, 2022 reads in part:

Motorists in Tennessee are advised to use extreme caution and to limit travel if possible. Snow and ice remain on interstates and state highways, and especially secondary roadways. THP and TDOT personnel are also working today to clear vehicles from roadsides that were abandoned or involved in wrecks...

The Tennessee Emergency Management Agency specifically issued a State of Emergency due to a winter storm. They warned of "hazardous travel conditions" and advised the citizenry to "avoid unnecessary trips". The State of Emergency encompassed 33 counties throughout

Middle Tennessee, one of which was Davidson County. The city of Nashville is within Davidson County's borders.

The Nashville Office of Emergency Management report dated January 6, 2022 released media statements from Nashville Agencies. One of the statements was from Metro Nashville Police Department which reads in part:

As of 10:30 a.m.

Major thoroughfares and side streets throughout Nashville are treacherous.

The Level 3 – State of Emergency that was issued as a result of the snow storm affected nearly every letter carrier in Bellevue Station. The employee on the clock report revealed 31% of the station's employees were present and clocked in at 8:00 a.m. on January 6, 2022. The same report revealed that only six employees or 11% of Bellevue's workforce remained present and on the clock at 3:00 p.m. The same report, which was generated at 10:00 a.m. on January 7, 2022 reveals that there were only six employees, again 11% of Bellevue's workforce, present and on the clock. The employee on the clock reports clearly illustrate that a group of Bellevue's workforce was affected.

ELM Section 519.213 reads:

519.213 Determining the Cause of Absence

Postmasters and other appropriate postal officials determine whether absences from duty allegedly due to "acts of God" were, in fact, due to such cause or whether the employee or employees in question could, with reasonable diligence, have reported for duty.

The above provisions of the Employee and Labor Relations Manual pose simple questions when determining the cause of the absence. From January 6, 2022 through January 9, 2022, 179 scheduled deliveries were canceled. The distribution trucks moved no mail from the Processing and Distribution Center to any local units for delivery. Surely management will not argue that employees could have made better effort to report for duty when the trips from the P&DC were canceled because of the same snow storm or act of God.

Furthermore, the provision does not require the employee to show extreme or extraordinary diligence, exercise due diligence, or in fact provide concrete evidence of any diligence at all. The Service is predicated on the safety of its employees and certainly would not expect its employees to place themselves in a dangerous situation simply to prove they attempted to report for duty. The above referenced ELM provision provides clear and concise contractual language stating, "whether the employee or employees in question could, with reasonable diligence, have reported for duty".

Reasonable diligence is a subjective term which places the onus on management to determine, not only whether the employee could have with *reasonable* diligence reported for duty these days, but provide a coherent and acceptable definition of what reasonable diligence would entail. In these conditions, the letter carrier would have to exercise extraordinary diligence to safely report for duty. By doing so, the letter carriers would have placed themselves in danger in an effort to arrive at a facility that had already cancelled delivery of mail from the Processing and Distribution Center to their local duty station. What's more, local management failed to make even the most rudimentary effort to equip letter carriers delivery vehicles with the proper safety equipment to ensure they could safely attempt to deliver any mail that was already present.

ELM Section 519.214 reads:

519.214 Early Dismissal Due to Acts of God

When employees are dismissed from duty before the normal completion of their duty due to an act of God, the following applies:

- a. Full-time employees are entitled to credit for hours worked plus enough administrative leave to complete their tour of duty. This combination of work and leave is not to exceed 8 hours in any one day.
- b. Part-time regular employees are entitled to credit for hours worked plus enough administrative leave to complete their scheduled hours of duty. This combination of work and leave is not to exceed 8 hours in any one day.

The grievance file contains contentions submitted by Management which read in part:

The Formal A appeal shows no request for snow removal by any carriers in this grievance in their effort to report to work. Management contends this service would complete the carriers due diligence in reporting to work. (Emphasis added)

The Union duly notes that Management at the Formal A Level provided contentions stating that simply requesting a service to remove the snow from around the employees home would complete any obligation of due diligence required by the carrier in their effort to report to work and thereby qualify them for Administrative Leave. Should the grievant perform this job themselves it would surely qualify them as well. It can be assumed in a city with close to one million residents, the employee would not request and then wait for the Nashville Snow Removal to perform this task on their first come first serve basis, but would certainly complete it themselves in a more timely manner.

The contentions submitted by Management continue below as follows:

There is no contractual benefit that entitles employees to be paid when they do not report for work due to inclement weather... The below stated section of the ELM does not provide for some employees who failed to show for work due to weather conditions; the "Acts of God" must prevent groups of people from working or reporting to work. The Union has failed to demonstrate that any particular group of employees was prevented from reporting to work... This storm certainly was not an extraordinary event as it does snow in Tennessee... (Emphasis as written) It is anticipated the Union will note a State of Emergency was declared in their effort to show how the world ended due to this storm, such is not the case... The Union must show a community disaster (Emphasis added)

There is a contractual provision and benefit which allows for the payment of Administrative Leave due to Acts of God such as the storms which impacted Middle Tennessee from January 6-8, 2022 and it is cited in the contentions submitted by Management as well as by the Union. It's obvious Management is attempting to diminish the seriousness of this situation by being glib rather than factual by basically stating anything less than a catastrophic event as defined in higher levels of emergency is not defined or categorized by them as an emergency. The Activation Status reveals a Level 3 – State of Emergency is just below catastrophic. A Level 3 State of Emergency is an emergency or minor disaster which has occurred and/or the situation is deteriorating rapidly. The Union has clearly shown the event was an Emergency as well as a disaster.

The file contains contentions submitted by Management which read in part below:

This storm was not an extraordinary event.... Work was available and the Nashville Post Office was open for business.

The case file contains "route-trip" schedule for the distribution trucks that move the mail from the P&DC to the local stations for processing and delivery. The first scheduled route-trip on the report is on January 6, 2022 at 1:30 a.m. and has Bellevue Station as its final destination. The report shows this and all subsequent route-trip as "canceled". The first route-trip that went to Bellevue Station was on January 8, 2022. Management's contention that "Nashville Post Office was open for business" simply is not true.

The grievance case file contains TEMA Flash Report #1 - Winter Weather Event released Thursday, January 06, 2022. The report reads in part:

The State Emergency Center is Activated in Nashville with personnel supporting response efforts and resource request...The State of Emergency Operations Center in Nashville is activated to a Level 3 – State of Emergency

TEMA Flash Report #2 released on Friday, January 7, 2022 reads in part:

...THP and TDOT personnel are also working today to clear vehicles from roadsides that were abandoned or involved in wrecks Thursday...The State Emergency Center in Nashville is activated to a Level 3 – State of Emergency with the State's Emergency Service Coordinator...Level 3 – State of Emergency which is defined as follows: Level 3 State of Emergency – At this level a serious emergency or a minor disaster has occurred or a situation is deteriorating rapidly and public warnings are being issued. The Tennessee Emergency Management Plan (TEMP) is activated and a state of emergency is immediately declared per TCA 58-2-107...Follow the instructions of emergency officials and be ready to take cover in any severe weather situation.

The Union provided contentions which read in part as follows:

Included in the grievance file is the truck and delivery schedule provided by USPS Iris Jones which evidenced from 01/06-01/09/2022, 179 scheduled deliveries were cancelled.

The above TEMA Flash Reports reveal Management at the Formal A Level is misrepresenting the facts. There was a State of Emergency declared by the Governor. It was an extraordinary event as shown above. People do not simply abandon their vehicles under reasonable or ordinary circumstances and two state agencies would not be dispatched to clear these vehicles if there were not an extraordinary amount of wrecks and abandoned vehicles to attend to.

The Union also contends the 82% of employees who could not report for duty on January 7, 2022 in the Nashville Installation, including the 89% from Nashville's Bellevue Station, satisfies any definition of "groups" of employees and "general" in impact. 82% is not "some employees", as contended by Management at the Formal A Level, it is nearly all employees in an Installation so large it consists of 17 individual stations and over 600 employees.

The grievance file contains an Employee Listing Report, identifying all finance numbers in the Nashville Installation, that reveals on Thursday, January 6, 2022, 334 employees reported for duty out of 626 potential employees (52%). At 3:00 p.m. the very same day, only 123 (19%) remained on duty. The following day (01/07/2022), only 119 employees (18%) were able to report to duty in the Nashville Installation. The number of employees who were able to report for duty at Nashville's Bellevue Station on January 7, 2022 was 6 (11%) which is lower than the

percentage of employees city wide. This is certainly an extraordinary event that affected and prevented a large group of employees from reporting to work and was general in scope.

The grievance file contains contentions submitted by Management which read in part:

Nashville Post Office employees live in Tennessee and unlike employees who may live in a sunbelt area, snow and ice is a fact of life here.

The grievance file contains documentation submitted by the Union which reads in part:

The National Weather Service estimates as much as seven inches fell in parts of Nashville – and it won't be going anywhere today...By the numbers: More snow fell in about 8 hours Thursday than Nashville saw all year in 2021. The total accumulation for all of last year was 5.4 inches, according to the NWS.

An annual snowfall of 5.4 inches in 2021 hardly warrants the assumption that snow and ice are a fact of life in Nashville/Middle Tennessee. Management has submitted a plethora of regional arbitrations from areas in the country where the infrastructure is prepared for the extraordinary amounts of snow and ice which occur with far more frequency in an effort to persuade the arbitrator that Tennessee is the New England or Minnesota of the South. Snow and ice of the magnitude which impacted the state on the incident dates are not a fact of life in Middle Tennessee unlike other regions of the country and this was not "simply a snow storm" that prevented 82% of the employees in the Nashville Installation from reporting for duty.

The Union contends Management violated the National Agreement when they failed to grant Administrative Leave to letter carriers in Nashville's Bellevue Station due to an Act of God occurrence during the period of January 6-8, 2022. Middle Tennessee was under a Level-3 State of Emergency that began on the afternoon of Thursday, January 6, 2022 and continued into Friday, January 7, 2022. The Nashville area was slammed by an accumulation of ice, sleet, and snow which made the city and surrounding area road conditions treacherous and impassable. The evidence in the file shows this emergency prevented groups of employees from reporting to work and most of those that did were prevented from completing their duties if there were any at all, because even the USPS dispatch trucks could not deliver mail to Bellevue Station. There is a Pre-Arbitration Settlement included in the file relevant to other stations in the Nashville Installation to show the parties have already agreed there was an Act of God situation for lesser conditions in 2021.

The Union requests all remedies requested be awarded in their entirety.

MANAGEMENT'S POSITION:

Management effectively addressed the issues of this grievance at Formal A and those arguments are brought forward to Step B and Arbitration. Management adds the following at Step B in accordance with the instructions located on JCAM page 15-9:

The Union filed this grievance asking if Management violated Article 19 of the National Agreement via the Employee and Labor Relations Manual (ELM) when they failed to grant Administrative Leave to carriers for their absences on January 6, 2022, through January 8, 2022, claiming a snowstorm equated to an Act of God. The Union also claims Management failed to provide safe working conditions with properly equipped vehicles. The burden of proof lies with the Union in this grievance and Management will show the burden required has not been met.

The Union includes information for several stations in the Nashville Installation. However, the Union did not file a "citywide" grievance and this case involves only Bellevue Station. The file does not contain information for other stations sufficient to show if employees requested leave due to weather, observed Non-scheduled (NS) days or had pre-approved leave. The comparison of Bellevue to other stations in the Nashville Installation is improper and the information should not be considered. Article 1.2 alerts that clerks, rural carriers, and Management employees are listed as exclusions from the National Agreement. The Union requested PS Form 1412, financial report, for the three dates. The Union does not claim the information was not provided, but they did not include them in the file. Their failure to include them gives the impression that business was conducted with the public on these dates.

Article 15.2.a. of the National Agreement reads as follows:

15.2 Section 2. Grievance Procedure—Steps Informal Step A (a)

(a) Any employee who feels aggrieved **must discuss** the grievance with the employee's immediate supervisor within fourteen (14) days of the date on which the employee or the Union first learned or may reasonably have been expected to have learned of its cause. This constitutes the Informal Step A filing date.

The steward requested information for only Bellevue Station employees. Documentation related to all stations in the Nashville Installation was not requested, although the steward also served as the Formal A Representative for this case, and there is nothing to show it was discussed with Management at the lowest possible level, prohibiting them from responding. It cannot be determined what, if anything, was discussed with Management at Informal A.

Management asserts it is improper to include several different stations in the calculations as the Union submits PS Form 8190's and Blocks 15 and 19a to show there were 12 separate grievances filed for 11 individual stations and Collections for the same weather event. Management notes the PS Form 8190s contain incident dates of only January 7, 2022, for Metro, Northeast, Acklen, Green Hills, and Donelson Stations. The Union will be unable to dispute each station in the Nashville Installation is considered a separate section for scheduling and leave purposes. The Union submits Google Maps which provide a general idea of the size of the city of Nashville. Winter weather conditions could certainly differ for the 12 different locations and zip codes and the specific facts and circumstances of each station would need to be reviewed separately.

The Union had the right to file a grievance directly at Formal A if they felt Management genuinely failed to ensure carrier safety, but they failed to do so. The Union did not include Article 14 in the issue statement formulated solely by them. The file contains no PS Form 1767s. The file contains nothing to show carriers alerted Management they felt unsafe delivering but were nevertheless required to do so. The Union claims Management refused to provide roadside assistance and pulled carriers off the street yet submits nothing to corroborate it. The allegations are meritless.

ELM Section 519 defines Act of God and explains Administrative Leave as follows:

519 Administrative Leave

519.21 Acts of God

519.211 General

Acts of God involve community disasters such as fire, flood, or storms. The disaster situation must be general rather than personal in scope and impact. It must prevent groups of employees from working or reporting to work.

519.212 Authorizing Administrative Leave for Acts of God

The following provisions concern administrative leave for acts of God:

- a. Postmasters and other installation heads have authority to approve administrative leave for up to 1 day.
- b. District managers and Postal Career Executive Service (PCES) plant managers may authorize administrative leave beyond 1 day, but not to exceed a total of 3 days, for their installation and those reporting to it.
- c. District managers and senior or lead plant managers may approve administrative leave for periods up to and in excess of 3 days for their installation and those reporting to it.

519.213 Determining the Cause of Absence

Postmasters and other appropriate postal officials determine whether absences from duty allegedly due to "acts of God" were, in fact, due to such cause or whether the employee or employees in question could, with reasonable diligence, have reported for duty.

The Union took it upon themselves to define Act of God which does not mirror the ELM definition. The Union submits percentages of employees failing to report without considering the number of employees who were not scheduled to work due to Non-scheduled days or pre-approved leave. The Union submits maps to show road closures yet does not specify any closures in the vicinity of Bellevue Station. The Union shares random photos of bad weather and road incidents but fails to show how they are related to travel routes to the Post Office from employee home addresses. Management correctly points out that photos were taken inside an LLV and a breezeway delivery point evidencing deliveries were being made. The Union received copies of eRMS screenshots as requested. The information shows employee home addresses which would have allowed for the Union to compare employee travel routes with the weather-related information, but they did not include the information in the file. Photos of traffic problems, accidents, or conditions at undisclosed or far off locations do nothing to show road conditions in, around, or en route to the Post Office. It appears the Union just printed off anything they could find about weather and traffic incidents occurring statewide and included it in the file with no explanation. The Post Office is in Davidson County and the Union provides no relevance to travel issues in surrounding counties. The information regarding interstate and state route incidents as well as Twitter posts are limited to January 6th. It appears the only weather-related information regarding January 7, 2022, consists of TEMA Flash Report #2 Tennessee Winter Weather which states the following:

- Following Thursday's winter weather event, Tennessee's interstates and state highways are in good condition today, though secondary roads are still icy and snow covered.

Management does submit the eRMS screenshots to show employee home addresses. Management does not choose where employees live, and the documentation shows there are several carriers who live far from their work location and a miniscule number of carriers live in the city of Nashville.

The Union does not articulate the relevance of the TN Department of Human Resources Policy addressing employee absences and state office closures due to inclement weather as the US Postal Service is a federal agency and is not bound by state government policy. All citizens were "urged to exercise caution and avoid non-essential travel where possible on Thursday, January 6." The USPS is always considered an essential service exactly as it has been during the COVID pandemic. The entire WORLD shut down and the United States Postal Service continued delivering. The USPS has been in a "State of Emergency" for a little over 2 years due to the pandemic. Postal employees are essential workers whose employment requirements originate from the ELM rather than from State officials.

There are 25 carriers and 6 CCA's assigned to Bellevue Station. CCAs are not covered by the ELM provision relative to Administrative Leave per Section 519.215 as follows:

519.215 Employees Prevented From Reporting

Employees scheduled to report who are prevented from reporting or, who after reporting, are prevented from working by an act of God may be excused as follows:

- Full-time and part-time regular employees** receive administrative leave to cover their scheduled tour of duty not to exceed 8 hours.
- Part-time flexible** employees receive administrative leave, subject to the 8-hour limitation, for their scheduled workhours, as provided in 519.214c.

The Union did not consider that the total number of available Bellevue Station carriers would be reduced as follows:

(01/06) Thursday Non-scheduled days – 3 (L. Glover, K. Bates, B. Lovell)
 (01/07) Friday Non-scheduled days – 4 (J. Dean, W. Burns, J. Fox, H. Neel)
 (01/08) Saturday Non-scheduled days – 4 (J. Tucker, C. Galbreath, M. Corbin, J. Leath)
 NALC National Business Agent – Steve Lissan Jr. – Non-scheduled all days (Code 084 – Union Official Leave)

Carrier Agee was on leave all week. He called in requesting Wounded Warrior Leave which was deleted and changed to LWOP or Annual Leave. The leave entries give the impression that his absence was not related to the weather. Carrier T. Blackburn Sr. was AWOL on all three dates. Therefore, his absence was not caused by weather. Carrier M. Wright was on Sick Leave on January 6th that was pre-approved and entered on January 5th. Carrier J. Smith was input for leave without pay, LWOP, for January 6th and 7th on January 3rd and the leave was pre-approved. Carrier L. Eakes was input as 4 hours of sick leave and 4 hours of LWOP for all three days and she had the same leave times for the remaining days of the week. There were 16 carriers scheduled to report on January 6th and 7th and 17 scheduled to report on January 8th. The Union did not include the Employees on the Clock report for January 8th. More than 50% of carriers reported on January 6th and January 8th and those dates would not qualify as a weather event considered an Act of God as defined by the ELM as any absences would have been personal in scope. The clock rings show some carriers chose to take their own leave and left early on January 6th. However, there is nothing in the file to show those carriers were required to leave as there are

carriers that worked overtime. The clock rings also show Carriers were able to perform street delivery. The clock rings also give the impression that carriers were not required to perform street deliveries if they felt unsafe as J. Fox worked 8.00 hours in the office on January 6th and C. Galbreath worked 8.00 hours in the office on January 7th.

It appears that January 7th was the only date when 50% of carriers did not report. Carriers' failure to report, in and of itself, does not substantiate that such failure would merit the awarding of Administrative Leave for a weather event. The question remains whether the Union proved the carriers were prohibited from reporting due to an Act of God as defined by the ELM **and** if the requirements for approval of Administrative Leave have been met.

JCAM page 15-8 contains the following:

A Step B decision establishes precedent only in the installation from which the grievance arose. For this purpose, precedent means that the decision is relied upon in dealing with subsequent similar cases to avoid the repetition of disputes on similar issues that have been previously decided in that installation.

Management submits a Step B decision for C11N-4C-C 15159657 which contains the following:

The case file is also absent a statement from the grievant revealing reasonable diligence was utilized in the attempt to report for duty.

The Step B decision for C11N-4C-C 15159601 contains the following:

The DRT agrees over 50% of the scheduled carriers were unable to report. **However, the grievant failed to submit a statement evidencing he exercised reasonable diligence in his effort to report to work.**

The Step B decision for C11N-4C-C 15159779, shows there was no violation of Article 19 and includes, "The grievance file does not evidence that Administrative Leave was requested by the grievant via PS Form 3971 for his absence."

The Step B decision for C11N-4C-C 15159637 reveals there was no request for administrative leave evidenced in the file as well as the following:

The grievance file contains a statement provided by the grievant which reveals he did exercise reasonable diligence and was unable to report to work on this specific day.

The Step B decision for C11N-4C-C 15159644 contains the following in the explanation portion:

The grievance file contains a statement provided by the grievant which reveals why he was unable to report to work on this specific day, but the file does not contain PS Form 3971 as evidence the grievant requested and was denied Administrative Leave.

Information in the Step B decisions reveals the Union must show carriers requested administrative leave and they must show an exercise of reasonable diligence in reporting.

The TACS Employee Everything Reports show only the following full-time carriers requested Administrative Leave, signified by deleted TACS code 079 and substituted with the alternate leave of the carriers' choice, when they initially called in to report an unscheduled absence:

J. Tucker (1/6 and 1/7)	K. Bates (1/7 and 1/8)	M. Corbin (1/7)	J. Crawford (1/7)
D. James (1/7 and 1/8)	A. Walker (1/7)	A. Alhassan (1/7)	B. Lovell (1/7 and 1/8)
H. McGlone (1/7)	H. Neel (1/8)		

As previously addressed, 50% of carriers reported on the 6th and the 8th. Therefore, only the 9 carriers requesting leave on 1/7 is relevant to this dispute. The Union submits a total of 12 PS Form 3971s reflecting requests for Administrative Leave. However, the forms show carriers input "Date Submitted" as January 12th, January 18th (8 forms), January 19th (2 forms), and January 22nd. None of the PS Form 3971s were ever seen by Management until Mr. Leath provided them to Supervisor N. Dinkins at the Informal A meeting as shown by the date notified as February 3, 2022. Eight carriers chose to leave early on January 6th, taking Annual Leave. The Postmaster is no longer given the option to approve the Administrative Leave and the late submission may have been a result of Steward coaching. It is improper to wait until a grievance is heard at Informal A, approximately 26 days after the last incident date, to submit a request for Administrative Leave. This appears to be nothing more than a method of trying to win a grievance at all costs and certainly does not evidence good faith bargaining. A few of the carriers requested administrative leave in amounts that differ from the annual leave taken.

The file does not contain one single statement from any carrier to show they made any attempt to report. J. Tucker called in at 5:11am on January 6th. K. Bates called in at 4:36am for her absence on 1/7 and at 6:16am for her absence on 1/8. A. Walker called in at 4:45am on 1/7. Carriers calling in hours prior to their begin tour, or a day in advance, prevents them from showing due diligence in reporting as the absences were predetermined.

M. Wright called in requesting SL at 7:48pm on 1/6 for 1/7. R. Harris Jr. called in at 3:45am requesting FMLA AL for 1/6. He requested emergency AL for 1/7 and FMLA AL for 1/8. He was also on leave on January 4th and 5th. J. Dean requested dependent care SL for 1/6.

Clock rings and eRMS reports show carriers requested annual leave or sick leave and were so charged. Carriers on AL/SL are not entitled to Administrative Leave per ELM Section 519.216 as follows:

519.216 Employees on Annual Leave, Sick Leave, or LWOP

Employees on annual leave, sick leave, or LWOP remain in such status. They are not entitled to administrative leave.

Carriers T. Jarvis, L. Glover, C. Galbreath and J. Leath worked on all three days represented in this grievance. Jarvis lives almost an hour from work in Cunningham, TN 37052. Galbreath lives approximately 30 minutes away in Goodlettsville, TN 37072. Those carriers were able to report to work yet Carrier Alhassan did not report and lives in the 37221 zip code. J. Fox lives in the 37221 zip code and reported on each of the days he was scheduled. W. Burns lives in Kingston Springs, TN and he reported to work each day he was scheduled. Clock rings show carriers who did report on the 7th were provided with 8 hours of work.

There is nothing to show carriers requesting Administrative Leave made any attempt to report to work. There is also nothing showing carriers requesting alternate leave types made any attempt to report. The Union's failure to perform a thorough investigation in this case results in their inability to show a violation. The Union agreed, in the submitted Step B decisions, carriers must show reasonable diligence in reporting and the Union must show the carrier requested administrative leave. It is only reasonable to determine that the carrier would have had to request the administrative leave when reporting their absence as carriers cannot, in hindsight, request any other type of leave weeks after the absence.

The Union refers to a Pre-Arbitration settlement and claims more snow fell in eight hours on January 6, 2022, than in Nashville in all of 2021, and there was less snow accumulation on February 16th and 18th. Management responds to the allegation by stating “the Pre Arb Decisions for 2021 accounted for two storms over five days as opposed to one storm on January 6” which was not disputed. The Union submits their contentions from the prior grievance which support Management’s argument as follows:

The Union contends through statements, newspaper articles, and documents in the case file clearly establish that a winter storm that again blanketed the city with ice and snow on February 16th and again on February 18th, 2021...

Argument included in the Union’s contentions for the prior case reveals they requested Administrative leave for a total of five days yet the remedy was limited to two in the Pre-Arbitration settlement. The fact that there was a similar grievance in 2021 supports that winter weather is not an isolated event in Nashville.

The Union contended, “a letter carrier might find it impossible to get to work even using reasonable diligence” as well as the following:

Reports indicate civilians were stranded and still pending an emergency dispatch crew. This would indicate **anyone on the street under these conditions would be more foolish than reasonable**.

The Union Formal A Representative submits this argument although he worked on each of the incident dates of this grievance.

Management does not dispute that Nashville experienced winter weather for the grievance incident date. However, Management shared there was advanced warning of the snow. No evidence has been established to prove any specific group or groups of employees were prevented from reporting for duty. More than 50% of carriers reported on the 6th and the 8th and the fact that some carriers could report on the 7th shows the issue was personal rather than general in nature. The Union failed to specify a particular geographical area or commonality shared by the absent carriers. The Union has also not sufficiently evidenced reasonable diligence in carrier attempts to report. The Union has not shown a “disaster” that was general in scope and there was no evidence of community immobilization. Therefore, the awarding of Administrative Leave is not justified. The ELM provides the Postmaster with the right to approve administrative leave for an Act of God, but it does not require it. The approval of the leave is not guaranteed. The Union has not shown Management’s denial of Administrative Leave as arbitrary or capricious, and the ELM criteria for the approval of administrative leave has not been met by the Union.

Step B is an integral part of the grievance process and JCAM page 15-9 explains what is required in an impasse as follows:

Impasse. A Step B impasse decision must state in detail the reasons for the impasse, and also must include a statement of any additional facts and contentions not included in the Formal Step A appeal.

The National level parties agree there is no dispute to the interpretation of the JCAM and the language states a Step B impasse **must** include a statement of additional facts and contentions **not included in the Formal Step A appeal**. A Memorandum of Understanding, Re: Article 15 – Dispute Resolution Process, page 15-3 of the JCAM, reads in part as follows:

Step B teams are not responsible for building the grievance file. It is the responsibility of the parties at Step A **to exchange documentary evidence and place copies in the file.**

The MOU requires the Step A parties' to exchange documentary evidence and Management makes no attempt to include documentary evidence at Step B. Management refers to the following National awards relative to new argument at Arbitration:

National Arbitrator Aaron NCE 11359

The principle that the parties to an arbitration are barred from introducing evidence or argument not presented at preceding steps of the grievance procedure must be strictly observed. The spirit of the rule, however, should not be diminished by excessively technical construction... The reason for the rule is obvious: **neither party should have to deal with evidence or argument presented for the first time in an arbitration hearing, which it has not previously considered and for which it has no time to prepare rebuttal evidence and argument.**

National Arbitrator Mittenthal N8-W-0406

If the parties do not raise arguments at Steps 2, 3 and 4 of the grievance procedure they may not raise such arguments for the first time at arbitration... **The Step B Team is required under Article 15, Section 2, Step B(b) "to ensure that the facts and contentions of grievances are fully developed and considered and resolve grievances jointly... That Step B language provides one last opportunity for the record to be developed...As the US Supreme Court stated an arbitrator is not to dispense their own brand of industrial justice.**

Article 15.2. Step B (c) of the National Agreement reads as follows:

15.2 (c) Step B (c) The written Step B joint report shall state the reasons in detail **and shall include a statement of any additional facts and contentions not previously set forth in the record of the grievance as appealed from Formal Step A.** The Step B team will attach a list of all documents included in the file.

Step B Representatives have the right to include in the Step decision "any additional facts and contentions not included in the Formal Step A appeal" according to National Arbitrators, the National Agreement and the JCAM provisions. Information in Management's impasse is not new argument as the Union has an opportunity to respond or rebut the arguments and they will not be heard for the first time at Arbitration. The failure to respond to the contentions contained in this impasse should result in the forfeiture to do so at Arbitration. Union responses or objections to Management's contentions, which were not addressed by the Union at Step B, **is** new argument and is prohibited according to National Arbitrators.

Management has shown the Union has not evidenced the weather occurring on January 6, 2022, through January 8, 2022, was an Act of God, per the ELM, warranting the Postmaster's approval of Administrative Leave. Management submits Step B decisions for the Nashville Installation which provide instructions on the requirements to be met for the granting of Administrative Leave and they were not met in this case. The Union has not met the burden required for the sustaining of this grievance. The Union's refusal to admit their failure results in a clogged system of grievances contrary to the National level parties Joint Statement of Expectations, M-01492.

The Dispute Resolution Team (DRT) has decided to declare an **IMPASSE**. The Step B team has considered all arguments and evidence in the case file and any of this material may be cited in the event of Arbitration. The NALC National Business Agent may appeal this grievance to Arbitration within fourteen (14) days after the receipt of this decision.

This grievance file contained the following documents:

- (1) PS Form 8190
- (2) Union Contentions (11 Pages)
- (3) PS Form 3971, M-01492, Pre-Arbitration Settlement, Union Contentions (22 Pages)
- (4) Request for Information, Workload Status Rpt, Leave Usage Log List (9 Pages)
- (5) Email, Truck Schedule, PS Form 8190, Issue/Remedy Statement (36 Pages)
- (6) Employee Listing Rpt, Employees on the Clock, Employee Everything Rpt (65 Pages)
- (7) Distribution Report, Employee Listing Rpt, Weather Documentation (105 Pages)
- (8) Google Maps, Twitter, Blank Page, Photos, News Rpt, Photos, Twitter (47 Pages)
- (9) News, Twitter, Blank Page, News, Blank Page, News, Arbitrations (135 Pages)
- (10) ELM, JCAM (4 Pages)
- (11) Management Contentions (15 Pages)
- (12) ELM, Weather Conditions, News Rpt, FEMA Rpt, ELM, JCAM (11 Pages)
- (13) Form 8190, Issue/Remedy Statement, PS Form 3971, Request for Info (19 Pages)
- (14) Workload Status Report, Leave Usage Log, Employee Listing Rpt, Email (54 Pages)
- (15) Snow Removal, Email, Weather Documentation, Leave Usage Log List (11 Pages)
- (16) News Rpt, Arbitrations, ELM, M-00932, M-00879, Step B Decision (115 Pages)
- (17) Arbitration, ERM260F0 Screenshots, (21 Pages)

In reaching the above decision, the DRT carefully reviewed each of the documents and placed the appropriate value to each as it applied to the issue in this grievance.

BLOCK 15

ISSUE STATEMENT:

Did Management violate Section 519 of the ELM via Article 19 of the National Agreement, when they failed to grant administrative leave to Letter Carriers in the Bellevue Station during the period of January 06th – 08th, 2022? If so, what is the appropriate remedy?

BLOCK 19a.

REQUESTED REMEDY:

That all Letter Carriers in the Bellevue Station be awarded 8 hours of administrative leave for each day they were prevented from reporting to work during the period Jan. 06th – 08th, 2022 and/or for management failing to provide safe working conditions with properly equipped vehicles.

That other types of leave (annual and sick) charged to Bellevue Station Letter Carriers during the period Jan. 06th - 08th, 2022 be returned to their leave balances.

That each affected Bellevue Station Letter Carrier(s) each be paid \$10.00 per calendar day beginning from Informal Step A meeting January 31, 2022 and continuing each day until they are made whole.

Management will not utilize or cite any dates from January 06th – 08th, 2022 in any disciplinary action.

All payments associated with this case be processed as soon as administratively possible but no later than fourteen (14) days from decision and proof/receipt of payment be provided via email to Formal A Representative at Jason.leath@yahoo.com within that time.

Or Whatever Step B Team or Arbitrator Deems Appropriate

Did Management violate Section 519 of the ELM via Article 19 of the National Agreement, when they failed to grant administrative leave to Letter Carriers in the Bellevue Station during the period of January 06th – 08th, 2022? If so, what is the appropriate

The grievance case file contains a Pre-Arbitration Settlement for the Nashville Installation which reads as follows:

As a result of pre-arbitration discussions, we have mutually agreed to full settlement of the above referenced cases as follows:

All Letter Carriers (excluding CCA's) who were scheduled to work on February 16 and February 18, 2021 shall be paid eight (8) hours of administrative leave for each day. This agreement shall be implemented as follows:

1. Leave charged to Letter Carriers for February 16, and/or 18, 2021 shall be returned to their appropriate balances.
2. Career Letter Carriers who were scheduled to work on February 16, and/or 18, 2021 and charged LWOP/AWOL will be granted administrative leave for February 16, and/or 18, 2021.
3. Letter Carriers who had previously scheduled leave or were on an extended LWOP status February 16, and/or 18, 2021 shall be excluded from the agreed upon remedy for the above referenced case(s).
4. All leave/pay adjustments associated with the above listed case(s) shall be completed using PS Form 2240. Management shall submit all PS Form 2240's for processing no later than July 9, 2021.

The grievance case file includes contentions from Bellevue Station for the above Pre-Arbitration settlement where the Nashville Davidson County area was blanketed with snow and ice making road conditions impassable. The Union contends on January 6th -7th the National Weather Service estimated as much as seven (7) inches of snow and ice fell in the Nashville Davidson County area causing road closures, fatalities, emergency vehicle accidents, cancelled flights, and officials pleading for people to remain at home due to the treacherous conditions. The Union contends more snow fell in eight (8) hours Thursday January 6, 2022 than Nashville saw all year in 2021 and the parties agreed to the above pre-arbitration settlement for less snow accumulation on February 16th and 18th of 2021.

M-01492 USPS Joint Statement of Expectations states the following in relevance to this case:

USPS-NALC JOINT STATEMENT OF EXPECTATIONS

The parties at the national level commit to the following principle's of conduct when addressing disputes under Article 15 of the National Agreement. We believe these principles are essential to the effectiveness of any dispute resolution process as well as effective working relationships between the union and management. Our expectation is that these principles will guide union and management representatives at all levels off the organization.

- We will do our best to understand and respect each other's roles, responsibilities, interests, and challenges.

- We will make every effort to establish and maintain a more constructive, and cooperative working relationship between union and management at all levels of the organization by promoting integrity, professionalism, and fairness in our dealings with each other.

- We are committed to honoring our labor contract and the specific rights and responsibilities of the parties set forth therein.

- We will work together to prevent contract violations through communication, training, and good faith efforts to anticipate workplace problems and resolve disputes in a timely manner.

- **We are committed to eliminating abuses of our grievance-arbitration procedure, such as the filing of unwarranted grievances to clog the system or a refusal to resolve grievances even where there are no legitimate differences of opinion between the parties.**

- We are committed to mutual and joint efforts to improve the workplace environment and to improve the overall performance of the Postal Service.

.. We will make every effort to resolve our disputes in a professional manner and to avoid any unnecessary escalation of disputes which may adversely impact adherence to the above principles or adversely influence union-management relationships at other levels of the organization.

An Act of God can be reasonably defined as "an event that directly and exclusively results from the occurrence of natural causes that could not have been prevented by the exercise of foresight or caution," or in other words, an inevitable accident.

The grievance case file contains TEMA Flash Report #1 – Winter Weather Event released Thursday January 06, 2022 stating in relevant:

Highlights:

- Winter weather brings significant snow accumulations to areas of Tennessee along and north of the corridor.
- The State Emergency Center is activated in Nashville with personnel supporting response efforts and resource request.
- The winter weather's most significant impact is to interstates and highways, and travel will remain hazardous through tonight and tomorrow.
- Temperatures overnight and during day Friday will remain below freezing statewide and may result in continued travel concerns and increase number of power outages.

Current Situation:

- A winter weather system dropped significant snowfall in Tennessee today with areas along and north I-40 receiving from 4" to 7" of accumulation and areas south of I-40 receiving a wintry mix of precipitation with little or no accumulation.
- The State of Emergency Operations Center in Nashville is activated to a Level 3 – State of Emergency.
- A Winter storm warning remains in effect for some areas along and north of I-40, stretching from Dyer County through Middle Tennessee, the Cumberland Plateau, and up to Claiborne County
- Except for Tennessee's southeast corner, temperatures Friday are forecast to remain below freezing statewide.

Winter Weather Impacts and Response Actions:

- The Tennessee Highway Patrol and Tennessee Dept. of Transportation are working to assist motorists, keep roads clear, and clear wrecks from interstates and highways.
- THP is reporting currently significant wrecks and blockages on I-40 and I-65 in Davidson County. Earlier today, THP worked a significant tractor-trailer accident on I-65, as well as weather-related accidents in Madison and Smith counties. THP reports traffic across Tennessee is moving steadily, and will be hazardous overnight as roads re-freeze.
- The Tennessee Dept. of Health closed most of its county health departments across the state today due to the winter weather.
- Tennessee Gov. Bill Lee also ordered states offices closed today and Friday.
- Power outages in the state are at 8,500

Key Messages:

- Plan for hazardous travel conditions in Tennessee through Friday as temperatures remain below freezing, and avoid unnecessary trips if possible.

The grievance case file contains TEMA Flash Report #2 – Winter Weather Event released Thursday January 07, 2022 @ 3:25 p.m. stating in relevant:

Highlights:

- Following Thursday's winter weather event, Tennessee's interstates and state highways are in good condition today, though secondary roads are still icy and snow covered.
- Motorist are advised to use extreme caution and judgement when traveling today in the state.

Current Situation:

- Motorist in Tennessee are advised to use extreme caution and to limit travel if possible. Snow and ice remain on interstates and state highways, and especially secondary roadways. THP and TDOT personnel are also working today to clear vehicles from roadsides that were abandoned or involved in wrecks Thursday. This activity will also contribute to the slower movement of traffic.
- The State Emergency Operations Center in Nashville is activated to a Level 3 – State of Emergency with the state's Emergency Service Coordinator.

Key Messages:

- Plan for hazardous travel conditions in Tennessee today

TEMA Report – Current Activation Status is: Level 3 – State of Emergency which is defined as follows:

Level 3 – State of Emergency

At this level, a serious emergency or minor disaster has occurred or a situation is deteriorating rapidly and public warnings are being issued. The Tennessee Emergency Management Plan (TEMP) is activated and a state of emergency is automatically declared per TCA 58-2-107.

Page 10-16 of the Joint Contract Administration Manual (JCAM) the parties agreed to the following:

Administrative Leave is governed by the provisions of Section 519 of the *Employee and Labor Relations Manual (ELM)*. It is defined as absence from duty authorized by appropriate postal officials without charge to annual or sick leave and without loss of pay. The ELM authorizes administrative leave under certain circumstances for various reasons such as civil disorders, state and local civil defense programs, voting or registering to vote, blood donations, attending funeral services for certain veterans, relocation, examination or treatment for on-the-job illness or injury and absence from duty due to "Acts of God." National Arbitrator Parkinson ruled in case J90M-1J-C 95047374, December 8, 2000 (C-23564), that the term "without loss of pay" in the definition of administrative leave means that employees should also receive night differential while on such leave if they would have otherwise earned it.

Section 519 of the Employee Labor Relations Manual allows management to grant administrative leave to employees due to "Acts of God" it reads as follows:

519.1 *Administrative leave* is absence from duty authorized by appropriate postal officials without charge to annual or sick leave and without loss of pay.

519.211 *Acts of God* involve community disasters such as fire, flood, or storms. The disaster situation must be general rather than personal in scope and impact. It must prevent groups of employees from working or reporting to work.

519.213 Postmasters and other appropriate postal officials determine whether absences from duty allegedly due to "acts of God" were, in fact, due to such cause or whether the employee or employees in question could, with reasonable diligence, have reported for duty.

519.215 Employees scheduled to report who are prevented from reporting or, who after reporting, are prevented from working by an act of God may be excused as follows:

- a. Full-time and part-time regular employees receive administrative leave to cover their scheduled tour of duty not to exceed 8 hours.
- b. Part-time flexible employees receive administrative leave, subject to the 8-hour limitation, for their scheduled workhours, as provided in

519.214c. What is an "Act of God"?

A definition commonly used by arbitrators in determining whether an "Act of God" has occurred which is sufficient to justify the granting of administrative leave, is: "A natural occurrence of extraordinary and unprecedented impact whose magnitude and destructiveness could not have been anticipated or provided against by the exercise of ordinary foresight."

1.The "Act of God" must involve a community disaster:

The Union contends the Middle Tennessee area was under a Level-3 State of Emergency that started on the morning of Thursday January 06, 2022. The Union contends the winter storm passed through the Middle Tennessee area blanketing all roads, bridges, and interstates with a treacherous level of ice followed by snow. The Union contends TEMA declared dangerous icy and snowy conditions have cause significant impacts to Tennessee's Interstates and to avoid travel on roadways if it all possible. The Union contends local state officials reported numerous accidents and road closures due to impassible conditions that crippled the Nashville area.

The grievance case file contains TDOT TEMA Flash reports that evidence for days Davison County in Middle Tennessee was under a Level – 3 State of Emergency and the Winter Storm had traveled across the state resulting in freezing rain, sleet, and snow. Those greatest accumulations were mainly in West and Middle Tennessee, with Nashville breaking a record. The Union contends more snow fell in about eight hours Thursday that Nashville saw all last year in 2021. By the evening of Thursday January 6, 2022 the Nashville area was slammed by the accumulation of ice, sleet, and snow making already impassable roads even more disastrous.

Reports included in the grievance case file evidence power outages, local and state office closures, numerous business closures, insufficient public transportation, school closures, MNPD and THP reported numerous vehicle accidents and main interstate closures.

- One person died after a tractor-trailer slid off Interstate 24 near Clarksville
- A fire engine on an emergency call hit the back of a city bus on Jefferson Street, causing it to spin and block the road. At least five people went to the hospital after the crash.
- Nashville Police responded to 172 crashes throughout the day; at least 44 of them with injuries reported.
- More than 300 flights were canceled or delayed at Nashville International Airport
- Officials pleaded with residents to stay home as crews worked to clear roads. They warned conditions would remain treacherous today, with temperatures staying below freezing.
- City officials warned of dangerously cold temperatures after the storm.
- Metro Police Department released major thoroughfares and side streets throughout Nashville are treacherous.

TDOT SmartWay camera photos for January 6th -8th evidence in great detail main travel ways for USPS employees were completely covered in unprecedented ice and snow coverage that the Nashville area was completely unaccustomed and unprepared to navigate. While TDOT crews worked feverishly in attempt to clear main passageways in became evident the resources needed to combat such a disaster were not available. The Union also contends management failed to properly equip any Postal Delivery vehicle with tire chains to assist in proper traction.

The union contends it is evidently clear Nashville in the Middle Tennessee area was in a Level 3 State of Emergency which constitutes in a minor disaster and numerous officials state roads in the middle and west Tennessee were treacherous and impassable.

2.The disaster must be general, rather than personal, in scope and impact:

Section 519.211 states, “The disaster situation must be general rather than personal in scope and impact.”

The grievance case file includes a plethora of news articles, pictures, and statements from government officials, and law enforcement that not only Nashville but the entire West and Middle Tennessee were blanketed with a treacherous layer of ice followed by snowfall accumulation. From every backroad, street, highway, by-pass, and major interstates had become a disastrous accident waiting to happen. A minute fraction of employees in all crafts and management were able to report to work due to the widespread weather that brought travel to nearly impossible. Grievance case file evidences numerous, even the majority, of Nashville Businesses, Government facilities, and supplemental transportation options were closed and directly impacted by the major winter storm. Nashville had been crippled by the winter storm blast and came to a complete shutdown.

The Union contends the impact of the winter storm was general in scope by affecting letter carriers in an around Nashville. If management refuses to provide road side assistance to a letter carrier who slides off the road and gets stuck then how could any normal human being feel safe to go out for delivery. Management cannot dispute that all work was completed to be done on the days in question and since Management refused to provide safety assistance or properly equip delivery vehicles with basic necessities to even attempt delivery in deuterating conditions left city delivery letter carriers with nothing to do and went home. Employees from all over middle Tennessee were prevented from reporting to work and the union contends the second criteria has been shown.

3.The disaster must prevent “groups of employees” from reporting to work:

Section 519.211 states “It must prevent groups of employees from working or reporting to work.”

The winter storm that blanketed the city with ice and snow on January 6th - 8th prevented multiple employees from reporting to work.

The grievance case file contains TACS Employee Listing Report which details all employees who are assigned to a facility. Bellevue Station has thirty-six (54) employees who are domiciled to 47-6152.

Also included is Bellevue Station Employee on the clock report which evidenced the following at 8:00 a.m. 01/06/2022:

Thursday 01/06/2022: 17 employees on the clock / 54 Potential Employees: 31%

Also included is Bellevue Station Employee on the clock report which evidenced the following at 15:00 p.m. 01/06/2022:

Thursday 01/06/2022: 6 employees on the clock / 54 Potential Employees: 11%

The Union contends all Letter Carriers had performed all the work distributed to their assigned routes and management had failed to properly equip delivery vehicles with tire chains. Management would not allow Letter Carriers to risk delivery without proper equipment, record snowfall on January 6, 2022 had deuterated travel conditions, and management had no other work for Letter Carriers to perform. The union contends the grievance case file contains TACS EER clock rings which evidence what time each reporting Letter Carrier left for the day due to unsafe conditions and no work available. The Union request each reporting Letter Carrier be compensated with administrative leave from the time they ended their tour.

Included in the grievance case file Employee Listing Report for All finance numbers, All finance Units, YrPPWk for 01/06-07/2022 which evidenced the following:

Thursday 01/06/2021 (8:00): 334 employees on the clock / 626 Potential Employees: 52%
Thursday 01/06/2021 (15:00): 123 employees on the clock / 626 Potential Employees: 19%

Friday 01/07/2022 (10:00): 119 employees on the clock / 637 Potential Employees: 18%

The Union contends it met its third criteria of an Act of God by showing Bellevue Station employees could not report to work due to the devastating Winter Storm arctic blast on Nashville and surrounding areas. Management demonstrated to the employees who did make it to work they would be completely on their own if they dared to attempt delivery and became stuck. Nashville Installation employees along with Bellevue station employees were not able to report to work due to the winter storm as evidenced by managements own reports above. Employees performed all available work on Thursday January 6, 2022 and left for the remaining part of the day management could not provide a safe working environment.

Also included is Bellevue Station Employee on the clock report which evidenced the following at 10:00 a.m. 01/07/2022:

Friday 01/07/2022: 6 employees on the clock / 54 Potential Employees: 30%

The Union contends on Friday January 7, 2022 middle Tennessee had been plummeted by the winter storm and freezing temperatures. Included in the grievance case file is the truck and delivery schedule provided by USPS Iris Jones which evidenced from 01/06 – 01/09/2022 179 scheduled deliveries were cancelled. The Union contends no additional work was brought to Northeast Station from the Plant and Distribution Center (PDC). Without proper equipment management failed to equip vehicles with employees were left with no work to perform. The Union contends reasonable diligence must be looked at as a general proposition rather than a specific proposition. Reasonable diligence must be determined on an overall basis of general conditions. The Union contends the description of this storm, with its ice, record snowfall, freezing temperatures, and wind would indicate that as a general proposition a letter carrier might find it impossible to get to work even using reasonable diligence. The Union contends that

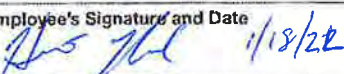

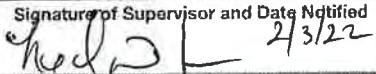

feeling is bolstered by public announcements made by the news media and local authorities. Both continually advised the general public to stay off the streets, even reporting emergency vehicles had been involved in crashes. Reports indicate civilians were stranded and still pending an emergency dispatch crew. This would indicate anyone on the street under these conditions would be more foolish than reasonable. The Union contends and ask the question, if the pre-arbitration settlement included in the file had less severe conditions, then how severe does a winter storm have to be management to authorize administrative leave?

The Union contends through statements, newspaper articles, and documents in the case file clearly establish that the winter storm that again blanketed the city with ice and snow on January 6th – 8th making all roadways, bridges, and interstates treacherous and acknowledged as impassable met the criteria for an Act of God as set forth in Section 519 of the ELM and that groups of letter carriers were prevented from reporting to work. The Union request the following remedy:

- **That all Letter Carriers in the Bellevue Station be awarded 8 hours of administrative leave for each day they were prevented from reporting to work during the period Jan. 06th – 08th, 2022 and/or for management failing to provide safe working conditions with properly equipped vehicles.**
- **That other types of leave (annual and sick) charged to Bellevue Station Letter Carriers during the period Jan. 06th - 08th, 2022 be returned to their leave balances.**
- **That each affected Bellevue Station Letter Carrier(s) each be paid \$10.00 per calendar day beginning from Informal Step A meeting January 19, 2022 and continuing each day until they are made whole.**
- **Management will not utilize or cite any dates from January 06th – 08th, 2022 in any disciplinary action.**
- **All payments associated with this case be processed as soon as administratively possible but no later than fourteen (14) days from decision and proof/receipt of payment be provided via email to Formal A Representative at Jason.leath@yahoo.com within that time.**
- **Or Whatever Step B Team or Arbitrator Deems Appropriate**

USPS-NALC JOINT STATEMENT OF EXPECTATIONS

The parties at the national level commit to the following principles of conduct when addressing disputes under Article 15 of the National Agreement. We believe these principles are essential to the effectiveness of any dispute resolution process as well as effective working relationships between the union and management. Our expectation is that these principles will guide union and management representatives at all levels of the organization.

- We will do our best to understand and respect each other's roles, responsibilities, interests, and challenges.
- We will make every effort to establish and maintain a more constructive, and cooperative working relationship between union and management at all levels of the organization by promoting integrity, professionalism, and fairness in our dealings with each other.
- We are committed to honoring our labor contract and the specific rights and responsibilities of the parties set forth therein.
- We will work together to prevent contract violations through communication, training, and good faith efforts to anticipate workplace problems and resolve disputes in a timely manner.
- We are committed to eliminating abuses of our grievance-arbitration procedure, such as the filing of unwarranted grievances to clog the system or a refusal to resolve grievances even where there are no legitimate differences of opinion between the parties.
- We are committed to mutual and joint efforts to improve the workplace environment and to improve the overall performance of the Postal Service.
- We will make every effort to resolve our disputes in a professional manner and to avoid any unnecessary escalation of disputes which may adversely impact adherence to the above principles or adversely influence union-management relationships at other levels of the organization.

 John E. Potter

As a result of pre-arbitration discussions, we have mutually agreed to full settlement of the above referenced case(s) as follows:

All Letter Carriers (excluding CCA's) who were scheduled to work on February 16 and February 18, 2021 shall be paid eight (8) hours of Administrative Leave for each day. This agreement shall be implemented as follows:

1. Leave charged to Letter Carriers for February 16, and/or 18, 2021 shall be returned to their appropriate balances.
2. Career Letter Carriers who were scheduled to work on February 16, and/or 18, 2021 and charged LWOP/AWOL will be granted administrative leave for February 16, and/or 18, 2021.
3. Letter Carriers who had previously scheduled leave or were on an extended LWOP status on February 16, and/or 18, 2021 shall be excluded from the agreed upon remedy for the above referenced case(s).
4. All leave/ pay adjustments associated with the above listed cases shall be completed using PS Form 2240. Management shall submit all PS Form 2240's for processing no later than July 9, 2021.

**UNION CONTENTIONS
B4-00103-21
CLASS ACTION
ACT OF GOD
BELLEVUE STATION**

Did Management violate Section 519 of the ELM via Article 19 of the National Agreement, when they failed to grant administrative leave for an Act of God to Letter Carriers in the Bellevue Station from February 16, 2021 – February 20, 2021? If so, what is the appropriate remedy?

An Act of God can be reasonably defined as "an event that directly and exclusively results from the occurrence of natural causes that could not have been prevented by the exercise of foresight or caution," or in other words, an inevitable accident.

The grievance case file contains TEMA Flash Report #3 – Winter Weather Event released Monday February 15, 2021 stating in relevant:

Highlights:

- State of Emergency remains declared and the Tennessee Emergency Management Plan is activated to support the Severe Winter Weather efforts.
- Freezing rain, sleet, and snow are expected to cause significant impacts to roadways. Many reports in Middle Tennessee of icy roadways.
- I-65 North at mile marker 102 in Sumner County is currently closed
- I40 East at mile marker 243 in Wilson county is currently closed.

Current Situation:

- A major winter storm is currently impacting the Tennessee Valley. This storm system is expected to bring freezing rain, sleet, and snow throughout the state, with the greatest impacts in West and Middle Tennessee.
- The storm system will create hazardous travel conditions and will likely cause power outages and tree damage due to significant ice accumulations.
- At this time, there are two weather-related fatalities confirmed by the Tennessee Department of Health.

Protective Actions/Key Messages:

- Refrain from driving to keep available streets and roads clear for emergency personnel.
- Declaration of State Office Closures in Middle and West Tennessee states the following:
- Nashville, Tenn. – Due to expected hazardous weather and travel conditions in Middle and West Tennessee, including freezing rain, ice and snowfall, Gov. Bill Lee has closed states offices on

Tuesday February 16, in sixty-seven (67) counties. Including Davidson County and All surrounding counties.

TEMA Report – Current Activation Status is: Level 3 – State of Emergency which is defined as follows:

Level 3 – State of Emergency

At this level, a serious emergency or minor disaster has occurred or a situation is deteriorating rapidly and public warnings are being issued. The Tennessee Emergency Management Plan (TEMP) is activated and a state of emergency is automatically declared per TCA 58-2-107.

Page 10-16 of the Joint Contract Administration Manual (JCAM) the parties agreed to the following:

Administrative Leave is governed by the provisions of Section 519 of the *Employee and Labor Relations Manual (ELM)*. It is defined as absence from duty authorized by appropriate postal officials without charge to annual or sick leave and without loss of pay. The ELM authorizes administrative leave under certain circumstances for various reasons such as civil disorders, state and local civil defense programs, voting or registering to vote, blood donations, attending funeral services for certain veterans, relocation, examination or treatment for on-the-job illness or injury and absence from duty due to "Acts of God." National Arbitrator Parkinson ruled in case J90M-1J-C 95047374, December 8, 2000 (C-23564), that the term "without loss of pay" in the definition of administrative leave means that employees should also receive night differential while on such leave if they would have otherwise earned it.

Section 519 of the Employee Labor Relations Manual allows management to grant administrative leave to employees due to "Acts of God" it reads as follows:

519.1 *Administrative leave* is absence from duty authorized by appropriate postal officials without charge to annual or sick leave and without loss of pay.

519.211 *Acts of God* involve community disasters such as fire, flood, or storms. The disaster situation must be general rather than personal in scope and impact. It must prevent groups of employees from working or reporting to work.

519.213 Postmasters and other appropriate postal officials determine whether absences from duty allegedly due to "acts of God" were, in fact, due to such cause or whether the employee or employees in question could, with reasonable diligence, have reported for duty.

519.215 Employees scheduled to report who are prevented from reporting or, who

after reporting, are prevented from working by an act of God may be excused as follows:

- a. Full-time and part-time regular employees receive administrative leave to cover their scheduled tour of duty not to exceed 8 hours.
- b. Part-time flexible employees receive administrative leave, subject to the 8-hour limitation, for their scheduled workhours, as provided in

519.214c. What is an "Act of God"?

A definition commonly used by arbitrators in determining whether an "Act of God" has occurred which is sufficient to justify the granting of administrative leave, is: "A natural occurrence of extraordinary and unprecedented impact whose magnitude and destructiveness could not have been anticipated or provided against by the exercise of ordinary foresight."

1.The "Act of God" must involve a community disaster:

The Union contends the Middle Tennessee area was under a Level-3 State of Emergency that started on the afternoon of Monday February 15, 2021. The Union contends the winter storm was classified as Winter Storm Uri and passed through the Middle Tennessee area blanketing all roads, bridges, and interstates with a treacherous level of ice followed by snow. The Union contends TEMA declared dangerous icy and snowy conditions have cause significant impacts to Tennessee's Interstates and to avoid travel on roadways if it all possible. The Union contends local state officials reported numerous accidents and road closures due to impassible conditions that crippled the Nashville area.

The grievance case file contains numerous TDOT TEMA Flash reports that evidence for days Davison County in Middle Tennessee was under a Level – 3 State of Emergency and Winter Storm Uri had traveled across the state resulting in freezing rain, sleet, and snow. Those greatest accumulations were mainly in West and Middle Tennessee. On the evening of Wednesday into early Thursday morning on February 17 -18th, the Nashville area once again was slammed by additional accumulation of ice, sleet, and snow making already impassable roads even more disastrous.

Reports included in the grievance case file evidence power outages, local and state office closures, numerous business closures, insufficient public transportation, school closures, MNPD and THP reported numerous vehicle accidents and main interstate closures.

TDOT SmartWay camera photos for the week of February 16th evidence in great detail main travel ways for USPS employees were completely covered in unprecedented ice and snow coverage that the Nashville area was completely unaccustomed and unprepared to navigate. While TDOT crews worked feverishly in attempt to clear main passageways in became evident the resources needed to combat such a disaster were not available.

The grievance case file includes a statement from USPS Corporate Communications Director Susan W. Wright which states the following:

USPS will make every attempt to deliver to all addresses, however, delivery is impacted in middle and west Tennessee **due to impassable roads** and inaccessibility of mailboxes.

Also included is Amazon PR Manager Brittany Chord Parmley which she states the following in the same press release:

We're actively monitoring the weather reports and following the guidance of local authorities to determine when any sites in impacted areas should close and/or reopen, and out of an abundance of caution we've closed some of our delivery stations throughout Middle Tennessee due to the inclement weather.

The union contends it is evidently clear Nashville in the Middle Tennessee area was in a Level 3 State of Emergency which constitutes a minor disaster and the USPS Communications Director along with numerous other officials state roads in the middle and west Tennessee are impassable.

2.The disaster must be general, rather than personal, in scope and impact:

Section 519.211 states, "The disaster situation must be general rather than personal in scope and impact."

The February 13–17, 2021 North American winter storm, unofficially referred to as Winter Storm Uri, was a major winter and ice storm that had widespread impacts across the United States, Northern Mexico, and parts of Canada from February 13 to 17. The storm started out in the Pacific Northwest and quickly moved into the **Southern United States**, before moving on to the Midwestern and Northeastern United States a couple of days later.

The storm resulted in over 170 million Americans being placed under various winter weather alerts being issued by the National Weather Service in the United States across the country and caused blackouts for over 9.9 million people in the U.S. and Mexico, most notably the 2021 Texas power crisis. The blackouts were the largest in the U.S. since the Northeast blackout of 2003. The storm also brought severe destructive weather to Southeastern United States, including several tornadoes. On February 16, there were at least 20 direct fatalities and 13 indirect fatalities attributed to the storm; by February 21, the death toll had risen to at least 82, including 70 people in the United States and 12 people in Mexico.

The grievance case file includes a plethora of news articles, pictures, and statements from government officials, USPS official, and law enforcement that not only Nashville but the entire West and Middle Tennessee were blanketed with a treacherous layer of ice followed by snowfall

accumulation. From every backroad, street, highway, by-pass, and major interstates had become a disastrous accident waiting to happen. Management even includes a statement to evidence roads were impassable. A minute fraction of employees in all crafts and management where able to report to work due to the widespread weather that brought travel to nearly impossible. Grievance case file evidences numerous, even the majority, of Nashville Businesses, Government facilities, and supplemental transportation options were closed and directly impacted by the major winter storm. Nashville had been crippled by the winter storm blast and came to a complete shutdown.

Grievance case file contains the following:

Daily Financial report for Bellevue Station which evidences on February 16, 2021, February 17, 2021, and February 18, 2021 Bellevue Station Window was not even open for business.

The Union contends the impact of the winter storm was general in scope by affecting letter carriers in an around Nashville, numbers inputted by mgmt. in DOIS Route Carrier Daily Performance Report evidence minimal volume to none for all routes indicating nothing was being distributed from the mail processing plant to the stations, no volume reports to indicate mail was being delivered to Bellevue Station to provide work, USPS Coordinator Susan Wright informing the public roads were impassable, and the union contends the second criteria has been shown. As a letter carrier at the Bellevue Station I was able to report to owning a 4x4 wheel drive dodge truck with off terrain tires that allowed me barely to make it to work. Bellevue Station Management had to order vehicle chains for the LLV's in our station due to the treacherous roads on the outskirts of Davidson County. Management was not even able to get tire chains for only about 40% of the LLV's until Wednesday February 18, 2021 late afternoon. Since there was no chains on the vehicles and no work available some carriers elected to leave early on 02/17/2021 and take their on leave. This directly evidences there was no work available and vehicles were not safe to utilize due to management failing to provide chains for the vehicle tires to attempt delivery.

3.The disaster must prevent “groups of employees” from reporting to work:

Section 519.211 states “It must prevent groups of employees from working or reporting to work.” The winter storm that blanketed the city with ice and snow on February 16 and again on February 18, 2021 prevented multiple employees from reporting to work.

The grievance case file contains TACS Employee Listing Report which details all employees who are assigned to a facility. Donelson Station has forty-seven (41) employees who are domiciled to 47-6150. Also included is Donelson Station Employee on the clock report which evidenced the following:

Tuesday 02/16/2021: 8 employees on the clock / 63 Potential Employees: 12%

Wednesday 02/17/2021: 13 employees on the clock / 63 Potential Employees: 20%

Thursday 02/18/2021: 5 employees on the clock / 63 Potential Employees: 7%

Friday 02/19/2021: 14 employees on the clock / 63 Potential Employees: 22%
Saturday 02/20/2021: 16 employees on the clock / 63 Potential Employees: 25%

Included in the grievance case file Employee Listing Report for All finance numbers, All finance Units, YrPPWk for 02/16/2021 – 02/20/2021 which evidenced the following:

Tuesday 02/16/2021: 157 employees on the clock / 637 Potential Employees: 24%
Wednesday 02/17/2021: 230 employees on the clock / 637 Potential Employees: 36%
Thursday 02/18/2021: 139 employees on the clock / 637 Potential Employees: 21%
Friday 02/19/2021: 242 employees on the clock / 637 Potential Employees: 37%
Saturday 02/20/2021: 334 employees on the clock / 637 Potential Employees: 52%

The Union contends through statement employees detailed their reasonable diligence to get to work, even some going against their better judgment, and ultimately realizing it was unattainable. The Union contends it met its third criteria of an Act of God by showing Bellevue Station employees could not report to work due to the devastating Winter Storm Uri arctic blast on Nashville and surrounding areas. Nashville Installation employees along with Bellevue station employees were not able to report to work due to the winter storm on multiple days as evidenced by managements own reports above.

The Union contends through statements, newspaper articles, and documents in the case file clearly establish that the winter storm that again blanketed the city with ice and snow on February 16th and again on February 18th, 2021 making all roadways, bridges, and interstates treacherous and acknowledged as impassable met the criteria for an Act of God as set forth in Section 519 of the ELM and that groups of letter carriers were prevented from reporting to work. The Union request the following remedy:

- **Letter Carriers in the Bellevue Station be awarded administrative leave for the dates of February 16, 2021 – February 20, 2021 when they were prevented from reporting to work.**
- **That other types of leave (annual and sick) charged to Bellevue Station Letter Carriers from February 16, 2021 - February 20, 2021 be returned to their leave balances.**
- **That each affected Bellevue Station Letter Carrier(s) each be paid \$10.00 per calendar day beginning from Informal Step A meeting March 12, 2021 and continuing each day until they are made whole.**
- **All payments associated with this case be processed as soon as administratively possible but no later than fourteen (14) days from decision and proof/receipt of payment be provided via email to Formal A Representative at Jason.leath@yahoo.com within that time.**

- **Or Whatever Step B Team or Arbitrator Deems Appropriate**

Thanks Ned for the information you sent. I amended the information request attached to identify what had been provided and what is still pending. I would also like to add the one following thing please.

1. Invoice for the installment of tire chains for all LLV's @ Bellevue Station from 01/06 - 01/08/2022.

Thanks the remaining information can be sent via email to jason.leath@yahoo.com

National Association of Letter Carriers Request for Information

To: Bellevue Station Supervisors Date 01/12/2022
(Supervisor Customer Services)

Bellevue Station / Nashville Installation
(Station/Installation)

Dear Management,

Pursuant to Article 17 and 31 of the National Agreement, I am requesting the following information:

1. TACS EER ALL Bellevue Station Employees for dates (01/01 - 01/08/2022)
2. DOIS Workload Status Report for dates (01/06,01/07,01/08,01/09/2022)
3. DUT Report for dates (01/06,01/07,01/08,01/09/2022)
4. PS Form 142 (Daily Financial Report) for dates (01/06,01/07,01/08/2022)
5. eRMS 410F0-05 Leave Management Report screenshot/snipping tool (Leave Summary)
6. for dates (01/06,01/07,01/08/2022) and for All Carriers & CCA's (Bellevue Station)
7. eRMS Call in log and denied leave log for All Bellevue employees for dates(01/06-01/08/22)
8. above info can be emailed to jason.leath@yahoo.com and thank you.

I am making this request on behalf of the following employee / employees:

Class Action Grievant

I am making this request based on the following reason:

1. Article 19 - Act of God

Your cooperation in this matter will be greatly appreciated. If you have any questions concerning this request, or if I may be of assistance to you in some other way, please feel free to contact me.

Sincerely,

Shop Steward

Subject: FW: [EXTERNAL] Truck Delivery and Schedule

From: Jason Leath <jason.leath@yahoo.com>

Sent: Wednesday, February 16, 2022 9:29 AM

To: Jones, Darren R - Nashville, TN <Darren.R.Jones@usps.gov>

Subject: [EXTERNAL] Truck Delivery and Schedule

CAUTION: This email originated from outside USPS. **STOP and CONSIDER** before responding, clicking on links, or opening attachments.

Good morning, Darren. My name is Jason Leath and I am with the NALC in the Nashville Installation. Needed to know on the evening of 01/06 through the morning of 01/07 did the delivery trucks run to the Nashville Installation stations? If so, could I get a copy of the reported delivery times please. Thanks.

Jason Leath

BLOCK 15

ISSUE STATEMENT:

Did Management violate Section 519 of the ELM via Article 19 of the National Agreement, when they failed to grant administrative leave to Letter Carriers in the Metro Station on January 07th, 2022? If so, what is the appropriate remedy?

BLOCK 19a.

REQUESTED REMEDY:

That all Letter Carriers in the Metro Station be awarded 8 hours of administrative leave for each day they were prevented from reporting to work during the period Jan. 07th, 2022 and/or for management failing to provide safe working conditions with properly equipped vehicles.

That other types of leave (annual and sick) charged to Metro Station Letter Carriers on Jan. 07th, 2022 be returned to their leave balances.

That each affected Metro Station Letter Carrier(s) each be paid \$10.00 per calendar day beginning from Informal Step A meeting January 20, 2022 and continuing each day until they are made whole.

Management will not utilize or cite any dates from January 06th – 08th, 2022 in any disciplinary action.

All payments associated with this case be processed as soon as administratively possible but no later than fourteen (14) days from decision and proof/receipt of payment be provided via email to Formal A Representative at Jason.leath@yahoo.com within that time.

Or Whatever Step B Team or Arbitrator Deems Appropriate

BLOCK 15

ISSUE STATEMENT:

Did Management violate Section 519 of the ELM via Article 19 of the National Agreement, when they failed to grant administrative leave to Letter Carriers in the Donelson Station on January 07th, 2022? If so, what is the appropriate remedy?

BLOCK 19a.

REQUESTED REMEDY:

That all Letter Carriers in the Donelson Station be awarded 8 hours of administrative leave for each day they were prevented from reporting to work during Jan. 07th, 2022 and/or for management failing to provide safe working conditions with properly equipped vehicles.

That other types of leave (annual and sick) charged to Donelson Station Letter Carriers on Jan. 07th, 2022 be returned to their leave balances.

That each affected Donelson Station Letter Carrier(s) each be paid \$10.00 per calendar day beginning from Informal Step A meeting and continuing each day until they are made whole.

Management will not utilize or cite any dates from January 07th, 2022 in any disciplinary action.

All payments associated with this case be processed as soon as administratively possible but no later than fourteen (14) days from decision and proof/receipt of payment be provided via email to Formal A Representative at Jason.leath@yahoo.com within that time.

Or Whatever Step B Team or Arbitrator Deems Appropriate

RE: Formal A Denial**

**USPS Grievance #: 21172162
NALC Grievance #: B4013821
Grievant: Class Action**

Management Contentions

The union alleges a contract violation when management denied employees administrative leave due to winter storm on January 6, 2022. This grievance concerns the several days, January 6 – 8 2022. as indicated on the Forma 8190. The union's position is outlined in detail in the Formal A appeal.

The issue in this grievance is that a snowstorm occurred on January 6, 2022, and Administrative Leave was not granted to employees who did not report to work on January 6, 7 and 8. The Union argues that the snow storm constituted an act of God and that a substantial number of employees were unable to report to work due to conditions.

This union grievance requests that Management abide by the regulations set in the ELM and that employees be paid Administrative Leave for leave used as a result of being unable to report to work on those three days.

The grievance is denied. The conditions on January 6-8 simply do not justify paid administrative leave under the guidelines of the Employee Labor Relations Manual. There simply is no contractual benefit that entitles employees to be paid when they do not report to work due to inclement weather.

The Service contends that the Union has failed to meet their burden of proving a violation of subchapter 519 of the ELM. A disaster situation as addressed in Section 519 must be general rather than personal in scope and impact.

The below stated section of the ELM does not provide for some employees who failed to show for work due to weather conditions; the "Acts of God" "must prevent groups of employees from working or reporting to work." The union has failed to demonstrate that any particular group of employees was prevented from reporting to work.

ELM 519.211 states: "Acts of God involve community disasters such as fire, flood, or storms. The disaster situation must be general rather than personal in scope and impact. It must prevent groups of employees from working or reporting to work."

ELM 519.1 states: "Administrative leave is absence from duty authorized by appropriate postal officials without charge to annual or sick leave and without loss of pay."

ELM 519.212 states in pertinent part: "Postmasters and other installation heads have authority to approve administrative leave..."

ELM 519.213 states: "Postmasters and other appropriate postal officials determine whether absences from duty allegedly due to "Acts of God" were, in fact, due to such cause or whether the employee or employees in question could, with due diligence, have reported for duty".

ELM 519.216 states: "Employees on annual leave, sick leave, or LWOP remain in such status. They are not entitled to administrative leave."

The Service responds that the criterion in Section 519.211 of the ELM was simply not met during the time period cited in the grievance. Specifically, there was no Act of God that involved a "community disaster" nor were "groups" of employees prevented from working or reporting to work. In fact, by January 8, the storm had already past by several days and the temperature was well above freezing.

In support of its position, the Service in part relies on TACS reports, ERMS Call in Log and ERMS Notification auto generated emails to support its position.

The file includes employee addresses of those who did report to work and those employee addresses of those who did not report to work. In addition, employees at other stations who also reported to work on January 7 are included.

In addition the Service offers the following information in support of its position that the union has failed to demonstrate a violation of the CBA:

- Statement from MCSO Rodney Hall that Nashville city Post Office were open for business
- Saturday would be January 8 was expected to be high of 46 (See TEMA flash Report)
- No Level 2 or Level 1 State of Emergency was declared for Middle Tennessee by state Government.
- TEMA Flash Report addressing highlights and current situation
- Current Status explaining Level 3 State of Emergency
- Email from Postmaster Lisa Rogers states that no one was sent home and no Admin Leave was approved.

The union submits no statements when appealed to Formal A from carriers about the snow on January 6 - 8. Any statements the union provides at Formal A would be

considered Ambush at Formal A as no other carrier has shown they made any attempt to report to work.

The file includes ERMS Notification email, an auto generated email to the local manager/supervisor of the employee that has called in for that day(s). Once the call has been made by the employee, ERMS will send this email after the call is made.

A review of the ERMS email show that carriers were calling anywhere from the night before and as early as 12:45 AM until the morning of. Management contends that those carriers chose not to attempt to come to work and, because of this, were not prevented from reporting to work.

The Service opines that in order for administrative leave to be paid in such cases as the instant grievance, the union must prove the existence of a "community disaster" first and foremost; the union has failed to meet that burden in this case. This position is supported below by Arbitrator Cohen in # C8C-4M-C 27160, on page eight (8), Arbitrator Cohen states:

"The first criterion is that a disaster must have occurred. **This means that bad conditions, poor weather, difficult conditions, and the like are insufficient to constitute a disaster. A disaster must be an extreme situation.**" By definition a disaster is 1.a. "An occurrence causing widespread destruction and distress..." or, n. core meaning: "a grave occurrence having ruinous results..." There is no evidence to substantiate that such conditions did exist at the start of Tour II on the morning of February 18, 2003."

Arbitrator Cohen also speaks to school closings on page 10 of the aforementioned case. He states:

"The fact that the schools closed is of some significance, but it should be recognized that schools can be closed for the safety of children where adults still are able to do their daily activities."

In addition, the Service submits the following information to support its position;

On page # 6 in case # E4N-2A-C 42277, Arbitrator Rimmel writes:

"In my opinion, the language requires that there be an extraordinary event present for the purpose of triggering the provisions of administrative leave. Simply stated, something has to occur which is highly unusual for the area and not necessarily contemplated under the given situation". The reference above is made to a case out of Philadelphia. The arbitrator further states on page # 7: "I do not believe that because large snow storms occur that administrative leave should be granted upon each and every occurrence, at least in this area of the country..."

In case # B94N-4B-C 96029131, Arbitrator Simmelkjaer addressed a severe snowstorm situation, (storm Ginger), and provided a well reasoned opinion regarding the criterion related to the granting of Administrative Leave. Of significance he stated on page 14:

“The Postal Service has a unique tradition characterized by fulfilling its public mission despite extreme weather conditions. Barring a widespread community disaster, postal employees are expected to report to work. It seems reasonable to conclude that any lessening of this performance standard might encourage employees in the face of severe or hazardous weather conditions to opt for Administrative Leave in lieu of exerting the maximum effort to report to work.” As Arbitrator Jacobs correctly noted:

“Administrative Leave is not given as a reward or denied as a punishment. Rather, it is given in recognition of the existence of extreme conditions when the Postmaster determines the particular criteria outlined in the Agreement are met [Ibid.]

This storm certainly was not an extraordinary event as it does snow in Tennessee, specifically middle Tennessee, nor did this snow storm cause wide spread destruction. The Employer’s facility was in fact operable and employees in fact reported for duty as the community was passable.

In the final analysis the Service was not being arbitrary, capricious, or unreasonable when it did not authorize Administrative Leave for the date(s) in question. Nashville Post Office employees live in Tennessee and unlike employees who may live in a sun-belt area, snow and ice is a fact of life here. So are state road crews, snowplows, snowblowers, shovels, salt, sand, 4X4 trucks and a myriad of other equipment and resources that deal with our snow removal issues. For employees in a more southern state this snowstorm would have been far more serious because snow is not a usual event and they would not be as prepared nor have similar equipment as available in Tn.

This storm was also not a surprise to anyone in Middle Tennessee. There was plenty of advance notice about the storm and employees had ample opportunity to make preparations to get to work in a timely manner. Because of the ample notice, state road crews were also on the job plowing snow and spreading salt and sand very early. With due diligence and care the roads were passable and employees could arrive at their place of employment.

It also must be said that the Postal Service and its Postal employees are not like other Employers and Employees. The Postal Service is unique in that we perform a vital function for the public. Arbitrator Cohen addresses that issue on page 10 in case # C8C-4B-C 35436. Arbitrator Cohen states:

“To a certain extent, any activity is risky and must be taken with a view as to what is at stake. In other words, one would not go to a movie in this storm. But attempting to get to work is another matter. The operation of the Postal service requires that more risks be taken by its employees to get to work than is required by school children to get to school or by the employees of many other types of businesses. The Postal Service serves a vital public function akin to that of the

police, fire department, city administrations, and the like. Its employees are expected to come to work except under disaster conditions. The evidence here did not disclose disaster conditions. It merely disclosed "severe" weather conditions, as many of the employees characterized in their statements. That is not sufficient to justify administrative leave."

Arbitrator Gold in #10102819 states;

It is commonly understood that the Union must show that (a) an "Act of God" did occur, (b) groups of employees were prevented from reporting to work, (c) the disaster was general rather than personal in scope and impact, and (d) employees used reasonable diligence to report, but could not because conditions were such that it was not possible to do so.

Based on a review of numerous arbitration decisions, the undersigned Arbitrator concluded in a November 1991 decision (Case No. N7C-1E-C 37501) that the fact that a state of emergency has been declared or a city has been designated as a disaster area does not in itself necessarily result in a finding that there was a community disaster general in scope and impact. Further, the amount of snowfall is not necessarily determinative of the issue, nor is the fact that mail delivery has been curtailed necessarily an element. On the other hand, a clear showing that the flow of traffic was seriously affected by the storm would be a major consideration. As I noted:

A factor that is of major significance, however, is the question of whether the flow of traffic was impeded by the storm. If primary and secondary roads were closed to normal vehicular traffic or it could be said, in general, that, if open, they were impassable, one could reasonably conclude that there was a disaster general in scope and impact. If, on the other hand, it was possible for vehicles to get through (albeit with operators experiencing some difficulty or having to exercise care or diligence), then it could be said there was not a disaster general in scope and impact. It would be assumed that employees, exercising reasonable diligence, could report for duty. Any problems encountered by employees under these circumstances (such as difficulties in getting out of driveways or over private roads) would be deemed to be of a personal nature.

As in nearly all snowstorms, the advice of government is to curb travel as much as possible, or to limit travel to the extent possible however, that is not to mean that roads are impassable. It is anticipated the union will show snow covered roads and pictures/ news articles of motor vehicle accidents due to conditions. Yet, in TEMA Flash Report Dated January 7, 2022 it states;

- Following Thursday winter event, Tennessee interstates and state highways are in good condition today, although secondary roads are still icy and snow covered
- Motorists are advised to use extreme cautions and judgment when traveling

TEMA does not report any road closures in their Flash Report.

Metro Nashville Snow Removal Website has a button to request snow removal using HubNashville.

The site states;

Once these routes are cleared satisfactorily, customer request for snow removal will be handled on a first come first serve basis.

The Formal A appeal shows no request for snow removal by any of the carriers in this grievance in their effort to report for work. Management contends this service would complete the carriers due diligence in reporting to work.

In case # B94N-4B-C 96030745, Arbitrator Wooters opined the following regarding the individual and personal choices various Postal employees make. He stated the following on pages 8 through 9:

"The Postal Service may not tell employees where to live. Nor may it determine what arrangements employees will make to get to work. Some employees may chose to purchase four wheel drive vehicles in order to deal with winter conditions in the Northeast. Some may choose to live closer to work than others. These choices may influence the ability to report to work in winter storm conditions. This does not mean, however, that when employees make choices which make it more difficult to report to work, they must be given administrative leave when foreseeable weather conditions make it more difficult to report to work."

Arbitrator Cohen in # C8C-4B-C 35436 gave his opinion when he stated that,

"The operation of the Postal Service requires that more risks be taken by its employees to get to work than is required by school children to get to school or by the employees of many other types of businesses. The Postal Service serves a vital public function akin to that of the police, fire department, city administrations and the like. It's employees are expected to come to work except under disaster conditions."

Finally, Postal employees do indeed bear a unique responsibility that other private sector employees do not have. Arbitrator Searce comments on this in case # NIT-IE-C 4705 by opining:

"Finally, it is worth noting that postal employees cannot be grouped into the same category of other working groups. They occupy a special place in our society and bear a public trust that requires a special effort on their part to meet their obligation—to move the mails."

The union requested remedy irises to the level of unjust enrichment. The union has not shouldered their burden of proof. Therefore, the items listed such as other types of leave charged to carriers be returned to their leave balance and that each carrier receive \$10.00/day is considered punitive and ludicrous.

Management refers to the following Arbitration Award issued by Arbitrator Bahakel for the Nashville Installation for C16N-4C-C 19423281:

Even if the parties had authorized a monetary penalty the only appropriate damages to be assessed in contract matters are those that compensate an injured party. In the discussion above I have addressed the fact that the Union has conceded that no carrier suffered monetary harm. **While the Union argues that its monetary remedy requested is not punitive, it is clear that the incentive behind the request is to punish Management for failing to comply with prior cease and desist awards and agreements.** However, under contract law, punitive damages are generally not available for contract violations even where there is an aggravated breach of the contract provisions.

The Union is utilizing the grievance process in a manner to stifle Management's ability to ensure efficient operations for which they are provided the exclusive right via Article 3.

The union must show a community disaster The evidence shown by the union prior to the Formal A meeting does not rise to the level of community disaster outlined in the above Arbitration Decisions. In fact, media reports submitted by the union confirm that the snow storm hit Nashville on Thursday, January 6, 2022

It is anticipated that the union will rely on a 2021 Pre Arb Decision awarding two days of Admin Leave to carriers in the Nashville Post Office. Management contends that the Pre Arb Decision for 2021 accounted for two storms over five days as opposed to one storm on January 6.

Next the union must show the disaster was general in scope rather than personal in scope. Management contends the snowstorm on January 6 was not classified a disaster, and therefore, any efforts by the carriers to report to work were personal, and not general in scope. The snowstorm covered much on Middle Tennessee, however, that is all that can be concluded. Management contends that with no supporting documents such as carrier statements, the union cannot prove its burden or chooses not to. Either way, the union prior to Formal A does not show groups of employees were prevent from reporting to work, specifically on any of the days in question.

It is also anticipated the union will note a State of Emergency was declared in their effort to show how the world ended due to this storm, such is not the case. Included is explanation of state of Emergency in Tennessee.

Level 2 is declared when there is a major disaster that would require federal assistance above local capabilities.

Level 1 is a catastrophic disaster where an event that requires massive state and federal assistance.

Neither a Level 1 or Level 2 State of Emergency was declared in Middle Tennessee contrary to union argument.

ERMS Report show employee home addresses and with exception of a few carriers, most have Nashville addresses.

Management contends that it is the Postmaster discretion to award Admin Leave as explained in the ELM. Work was available and the Nashville Post Office was open for business.

In this instance many of our postal employees who bear that special public trust did in fact make a special effort and did arrive on time at the Postal facility to help move our customer's mails. Their efforts should not be slighted by payment of Administrative Leave to those employees who did not report.

Management ask that this grievance be denied in its entirety.
